

# Sage Construction EVision

## Jet Reports

With 5,000 users in 36 countries, Jet Reports is the leader in Excel-based reporting for Finance Directors. As a reseller of Jet Reports, Sage Construction can provide you with this market-leading business tool as well as providing the necessary training to enable you to quickly gain benefit from the use of Jet Reports.

### Overview

With easy-to-use 25 pre-built reports that address the needs of accountants, finance people and business managers, Jet Reports accesses a multiple of granules and modules in Microsoft Dynamics™ NAV (formerly Navision).

Get financial, inventory, sales, customer, budgets, even fund reports at your fingertips with no programming required.

Want to change the date range and refresh the reports yourself? No problem. Get the latest most accurate information and even publish the reports as Web pages in addition to locked spreadsheets.

### Be ready at crunch time

As a Finance Director, you are already experiencing both the joys and frustrations of managing your financial and business information, especially during crunch time.

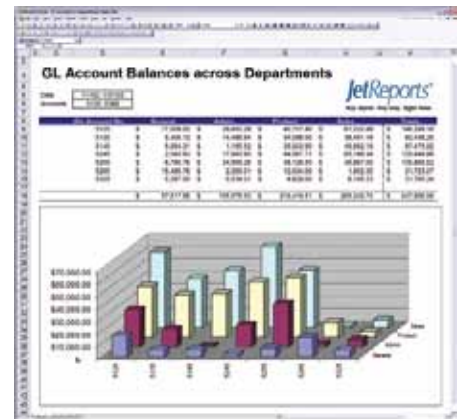

Now, you too can have the right answers to questions within minutes every time:

"Are those reports ready for month end?"

"Yes! And as you can see in this Excel spreadsheet..."

"How much revenue did we make on the Infinity project? I want to know how much we made in each region, I want it month to date, I want it for last quarter.... and current year to date."

"No problem. Let me show you the summary report right now..."

"What were our costs per region? Who sold the most product last week/month/quarter?"

"Oh, you will like this. We'll just drill down into Microsoft Dynamics™ NAV on the cost summary to get the details you're looking for..."
