

Sage Construction EVision Product Overview

Benefits

Enhanced personal productivity.
A new breakthrough role tailored interface provides the right user with the right tasks at the right time.

Integration with Office. Outlook is embedded in the Role Centre for direct access to Mail, Calendar, Tasks, etc. Data can be freely exchanged with Office, Project and SharePoint.

Make smart decisions based on accurate, tailored reporting.
Business Analytics builds data cubes in your ERP for easy analysis of all of your enterprise information while SQL Reporting Services provides robust enterprise reporting.

Understanding your business.
With over 40,000 customers in your industry Sage understands your issues and has the right solutions for your business.

Sage Construction EVision 2009 provides companies in the construction, service and maintenance, and housebuilding sectors with fully integrated industry-specific functionality:

- Project/Contract Management incorporating CVR
- Customer (Contact) Relationship Management
- Supply Chain Management
- Service & Maintenance
- Plant Management
- Financial Management and Reporting

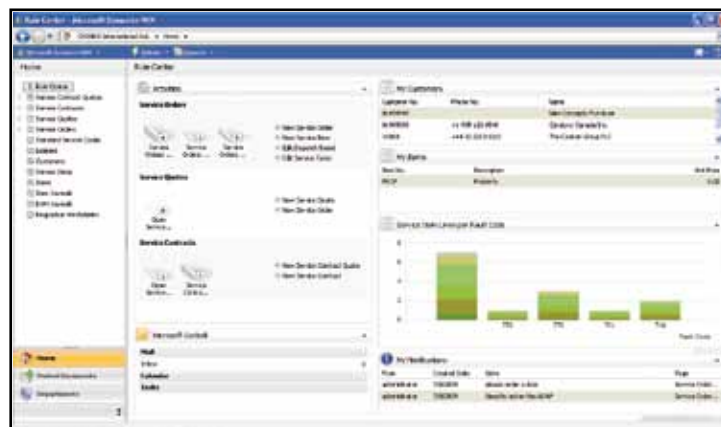

This is complemented by optional additional modules for:

- Human Resources & Payroll
- Manufacturing and Inventory Management

All of this information from across your organisation is held in a single place providing "one version of the truth" across all of your operations.

Sage Construction EVision has Microsoft Dynamics™ NAV at its core, allowing deep integration across familiar applications such as Microsoft Office and making it easy to communicate and collaborate effectively without juggling applications. EVision provides the flexibility to set up your system for today's business requirements, as well as offering a platform for change and growth.

Sage Construction EVision can give you early sight of project outcome, the sort of insight that helps to take the risk out of your business.

● Role Centres provide employees with a comprehensive overview of the information and tasks most relevant to their jobs
